

Removable Duct Section

Easy Access to Dampers for Inspection and Maintenance

- **THE PREFERRED SOLUTION FOR FULL DAMPER ACCESS**
- **COMPLIES WITH INTERNATIONAL BUILDING CODE**
- **LABOR SAVER**
- **MOUNTING CONNECTIONS FOR DAMPER AND DUCT AVAILABLE**

Option to add flanged duct connections to a stand-alone sleeve or duct section for Fire and Combination Fire/Smoke Dampers

Create a removable duct section by adding Ductmate DM-25, DM-35, or DM-45 flanged duct connections. This assembly can be easily removed for full, unobstructed access to the damper.

Designed for use with flanged UL breakaway connections, these connections can be shipped mounted or loose for installation in the field.
