

MILLER LITE CENTER

JACKSONVILLE JAGUARS TRAINING FACILITY

Housing two full-size grass practice fields and one indoor field, the Miller Electric Center is the brand-new practice facility for the NFL's Jacksonville Jaguars. It is complete with locker rooms, training and medical facilities, office space, and a draft room. Fans can enjoy shaded public viewing stands, concession areas, and a team store.

Architect: Rossetti Architects

Contractor: Haskell Construction

Pottorff Rep: CAVH HVAC

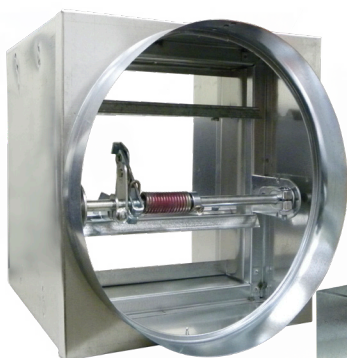

Pottorff supplied manual balancing dampers, thermally insulated control dampers and fire/smoke dampers for this facility. Control dampers are the perfect solution for maintaining air control within an HVAC system. Life-safety fire/smoke dampers are designed to prevent the spread of smoke and fire throughout the structure.
